Professional Summary
Junior Flutter Developer with hands-on experience building cross█platform mobile apps using Dart and Flutter. Strong understanding of UI design, reusable components, API handling, state management, and app debugging. Eager to work in real development teams and contribute to production-quality apps.

Technical Skills
• Dart
• Flutter
• REST API Integration
• Firebase (Auth, Firestore basics)
• Git & GitHub
• State Management (Provider, GetX basics)

Projects
Food Delivery App – Flutter
• Built UI screens for home, restaurant listing, and cart.
• Integrated mock APIs for product data.
• Added search functionality and reusable widget components.

Personal Expense Tracker – Flutter
• Implemented add/delete/edit expense features.
• Visualized data using charts.
• Used local storage for persistence.

Experience
Flutter Developer Intern – PixelByte Solutions (4 Months)
• Contributed to UI development for client apps.
• Worked on bug fixing and basic API integration.
• Participated in sprint meetings and testing workflows.

Education
B.Tech in Information Technology – 2024

Certifications
• Flutter & Dart Bootcamp – Udemy
• Firebase Fundamentals
